Energy Users

Mike Harrington and his team from Tenurgy conducted a review of our utility usage and rates for our corporate office building in Toledo, Ohio. They discovered that we were on the wrong rate plan with First Energy. They negotiated a refund of over \$160,000 and better than that our electric bill will be approximately \$7,000 a month lower moving forward. I highly recommend you give them a chance to do the same for you, you have nothing to lose.

A handwritten signature in blue ink, appearing to read "Patrick R. Hylant", is written over a faint, illegible background.
