To Whom It May Concern:

Tenurgy was able to accomplish with Verizon in several months what we had been trying to accomplish over years. The tenacity and thoroughness have been very impressive and we are happy with what Tenurgy has been able to accomplish on our behalf.

Today, Otsego Memorial Hospital is saving over \$20,000 annually with Verizon & DTE Energy and has received utility & telecom refunds in excess of \$19,000.

I would recommend Tenurgy to any company looking to reduce their utility costs through an audit of their current utility and telecommunication providers.

Sincerely,

Ralph Pardo
VP Support Services
